NOTE

The census enumeration was carried out in full according to plan but the Government of India decided to restrict the tabulation for British India. Consequently the tables in this volume cover less than half the contemplated range and offer in effect only the distribution of the population by community and by province or state, district, tehsil and town.

Opportunity has been taken however to sort wherever possible the 1/50 random sample taken in every area.

2. The slips in which the remaining unsorted information is to be found are stored in each province against a possible reopening of tabulation in happier circumstances.

I—AREA, HOUSES AND POPULATION

This table shows for each district and state the area, the number of towns and villages, the number of occupied houses, and the total urban and rural population male and female. For details of population by taluks see Provincial Tables I and II.

2. The areas of the units shown in this table differ from those shown in the corresponding table for 1931 as those now adopted are the latest determinations of the Survey Department. The differences are also due in some cases to the changes in 1936 in the district constitution consequent on the formation of Orissa. The figures given here differ in varying degrees from those in Provincial Table I. This is because taluk areas which are required for Provincial Table I are not extracted by Survey of India.

3. " Towns " are places of usually not less than 5,000 inhabitants possessing distinct urban characteristics.

4. " Villages " mean revenue villages or *mauzas*, other than (*i*) those which are wholly absorbed in towns and (*ii*) those which on the census day contained no population.

5. " Houses ' mean " Census houses ". It is defined at this Census for urban areas as " every dwelling with a separate main entrance ", and for rural areas as " the dwelling place of the commensal family ".

6. The urban/rural ratio, when the minimum population of 5,000 is applied to towns, is 1 : 32.

II—VARIATION IN POPULATION DURING FIFTY YEARS

This table compares the population as ascertained at the Census of 1941 with those at previous cens Previous census figures have been adjusted to allow for inter-provincial transfers consequent on the mation of Orissa, *i.e.*, to show the population existing at these enumerations in the areas now formin districts in Orissa.

On account of the extensive changes in the provincial and district constitution in 1936 it is possible to make exact adjustments for censuses earlier than 1911 in some cases but the figures adc were those that were presumed to bear the same proportion to the area as in 1931.

III—TOWNS AND VILLAGES CLASSIFIED BY POPULATION

1 For definition of the terms "towns" and "villages" see fly-leaf of Table I

2 For the purpose of this table the floating population is shown separately from the populations gathered under columns 5, 7, 9, etc This element is, however, included in town population for the purpose of Imperial Table V and hence slight differences in total

SAMPLE TABLES

The Government of India have sanctioned only limited tabulation. This is confined to Tables I—V, XIII and XIV and Provincial Tables I and II.

2 Tables VI, VII, XI and XII have been prepared for Orissa on a random sample basis. The sample was arrived at by taking every fiftieth slip for British Territory

3 The percentage composition of the various communities according to Imperial Table XIII and Sample Table VII is given below —

	Table XIII	Sample Table VII
Scheduled castes	14·2	14·0
Other Hindus	64·1	64·5
Muslims	1·7	1·7
Indian Christians	0·3	0·3
Tribes	19·7	19·5

The variation between the two is within 0 4%.
